## Taking Lessons Priorities

**For undergraduate and associate degree students;** Students must re-enroll in the F grade course in the first semester in which the course is offered. In cases where the student cannot re-enroll in all F courses due to other restrictions in this directive, the courses in the lower semesters of the student's curriculum are repeated first. The student may repeat the courses with DD or DC grades at any time, taking into account the other limitations in this directive. Courses with grades CC and above cannot be repeated.

**(Article 12)**

**In graduate students;** Courses that are successful with a grade of BB and above in CB and Doctorate programs in master's programs cannot be repeated. **(Article 28)**

Due to the difference in the course selections of our graduate school students in Distance Education and Formal education programs, they should contact their advisors to complete the course taking process and get information from their secretariats.

It is essential that the student enrolls in the courses in a way that does not create an hour overlap in the weekly course schedule. In compulsory cases, **a maximum of two courses may be allowed to overlap one hour each.** In overlapping course schedules, it is the student's responsibility to fulfill the attendance requirements. **(Article 18)**

The maximum number of students who can enroll in the course branches and the set of students who can take the course are determined by the programs that open the course. In case of compulsory registration for courses whose quota is not suitable, the positive opinion of the student's advisor and the approval of the program offering the course are sought **(Article 13)**

## Taking Courses from the Upper Semester

Students must register for the courses in the curriculum without leaving any gaps in the series sorted by semesters. In cases where graduation is delayed or in cases where the courses in the series are not opened, the student can take the courses from the upper semesters in the curriculum with the approval of the advisor. **(Article 17)**

## Registration According to Credit Fee

Students who complete all courses in the program, except for 15 or fewer ECTS credits, pay a fee per credit instead of a semester fee. Students who cannot take more than 15 ECTS credits in a semester due to the fact that the courses they can take are not opened or do not meet the prerequisites pay a fee per credit. **(Article 6)**
